Add "LIVE" Fashion Forum venues as a means to GREAT SAVINGS and immediately slash the advertising dollars you are currently spending!

Fashion Forums are an innovative concept of placing attractive women and men in the latest fashion ensembles and displaying them "live and direct" to the public in corporate building locations, cafeterias or restaurants, upscale hotel lobbies and/or dining facilities, ...during morning brunch, peak lunch times, dinner hours or special public event activities.

Fashion Forums display a LIVE up-close and personal look at your new products and merchandise while live plugs invite the attending public into your store location(s). Store coupons and/or advertising materials may be distributed and placed on location during Fashion Forum events.
